

## Supervisors' Monthly Consultation Group

Sue Levin, Ph.D., LMFT, LPC-S

Cathy King, M.S., LMFT, LPC-S

Once trained and credentialed as a supervisor many people find that they run into situations and dilemmas that they would like to discuss with colleagues. Your development of a supervisor is not complete after your 40-hour course. This consultation group will offer space to discuss supervisory and professional issues that the members bring for discussion. This is not a didactic format, though the facilitators are experienced supervisors and knowledgeable about the many rules, laws and guidelines that impact the practice of supervision for the mental health professions.

### Who Should Attend?

*If you are a new supervisor and would like support and feedback*

*If you are in a new situation as a supervisor, maybe in a new work setting*

*If you do not have a group of peers to consult with about your development as a supervisor*

*If you run into ethical dilemmas in your supervision or supervisory relationships*

*If you are asking yourself any of these questions, or other questions*

- How do you balance being a clinical and administrative supervisor?
- How do I supervise someone who works in a different setting?
- What are the differences between doing individual and group supervision?
